⚠ DE WICHTIGESICHERHEITSHINWEISE – VOR DER INSTALLATION LESE

LED-Streifen vollständig abrollen

Der LED-Streifen wird auf einer Rolle geliefert. Vor der Installation ist die gesamte Länge (25 m) vollständig abzurollen.

Die Stromversorgung darf erst nach vollständigem Abrollen angeschlossen werden.

Mindestbiegeradius beachten

Der LED-Streifen darf nicht geknickt oder im 90°-Winkel scharf gebogen werden.

⚠ EN IMPORTANT SAFETY WARNINGS – READ BEFORE INSTALLATION

Unroll the strip completely – The strip is supplied on a reel. Unroll the entire 25m before installation. Do NOT connect power until fully unrolled.

Minimum bending radius – Do not fold or bend the strip light at a sharp 90° angle. Minimum bending radius: 60 mm.

⚠ IT AVVERTENZE IMPORTANTI DI SICUREZZA – LEGGERE PRIMA DELL'INSTALLAZIONE

Srotolare completamente la striscia – La striscia è fornita su una bobina. Srotolare completamente tutti i 25 m prima dell'installazione. NON collegare l'alimentazione finché la striscia non è completamente srotolata.

Raggio minimo di curvatura – Non piegare o curvare la striscia luminosa con un angolo stretto di 90°. Raggio minimo di curvatura: 60 mm.

⚠ FR AVERTISSEMENTS IMPORTANTS DE SÉCURITÉ – À LIRE AVANT L'INSTALLATION

Dérouler complètement la bande – La bande est fournie en rouleau. Déroulez entièrement les 25 m avant l'installation. NE PAS connecter l'alimentation avant que la bande ne soit complètement déroulée.

Rayon de courbure minimal – Ne pas plier ou courber la bande lumineuse à un angle vif de 90°. Rayon de courbure minimal : 60 mm.
